

Under Counter-Top Filter Unit

RO406-5 Stage Filter - 10"

Under Counter Top Filter Unit: Model: ELFET RO-406 Karofi 5 Stage RO, 75Gal mem - no pump.

Under counter top 5 Stage reverse Osmosis water filtration unit for the filtration and sterilisation of water for one water point

RO CE8-R3 SPECIFICATIONS

Technical Data	ELFET - RO406
Temperature	40°C/ 2°C
TDS : 1000* ppm	1000* ppm
Inlet Pressure	1/2,5 bar 100-250 KPa
Membrane	1812 x 1
Membrane Production	50 GDP. Softened water 250 ppm. 25°C. 15% recovery
Membrane pressure	3,4 bar (without pressure)
Power Supply	100-240 Vac 50/60 Hz: 24Vdc. 5A ≈ 120W

REVERSE OSMOSIS STAGES

- Stage 1 - 5u Sediment Filter: App10-5 – 10”
- Stage 2 - Carbon Block Slimline 5u: CB300-10-5 – 10”
- Stage 3 - 1u Sediment Filter: APP10-1 – 10”
- Stage 4 - RO Membrane
- Stage 5 - Carbon Filter – 10”

HIGH EFFICIENCY
production recovery

ECOLOGICAL
Production is electronically
controlled for an improved
performance

CLICK
Quick connectors and
maximum safety

PRESSURE CONTROL
Protection against pressure
drops in the supply network

DIRECT ACCESS
Easy access and
maintenance

HIGH PERFORMANCE MOTOR
Highly efficient motor

SOLENOID VALVE
Immediate control.
Built-in safety mesh

ELECTRONIC ADAPTER
Higher safety and efficiency

ELFET[®]

CS/08/146. The quality system of the water treatment is certified and fulfills the requirements of the norm: UNE-EN-ISO-9001:2000
